

Satellite radio is essential for us. We live in a rural area where we don't have many other options. XM radio meets our needs for jazz, classical and political commentary on both sides of the political spectrum which we think is essential for informing the public on important affairs, When we travel in our car we can always count on important weather and traffic reports without having to take our hands off the wheel to scan the radio dial. We often have to travel over mountains to our destination.
